Re: Assistance with Bismarck Murder Case

Dear Elliott,

Thank you for your assistance with the medical-forensic-autopsy aspects in the murder case of State v. John Unruh. With your assistance I was able to obtain information from the prosecution's state medical examiner which supported our defense. We thereby avoided the large expense necessary to retain our own forensic pathologist.

The jury returned "not guilty" verdicts on the charges of AA Murder, A Murder, Manslaughter, Negligent Homicide and Resisting Arrest. John was acquitted straight across.

Your assistance was quite helpful in securing good, admissible medical testimony which supported my client's testimony that he acted in self-defense.

Sincerely

Tom Tuntland
